## **International Institute for Learning, Inc. Celebrates Launch of IIL Caribbean by Hosting Informative Summit with Prominent Industry Leaders**

### ***World's Leading Authority on Project Management, Dr. Harold Kerzner, to Deliver Keynote Speech at Upcoming Summit***

**New York, NY, August 8, 2008** — International Institute for Learning, Inc. (IIL) recently announced that in recognition of launching its newest company, IIL Caribbean, IIL will be hosting an informative one-day Summit on September 10, 2008 at the Hilton Trinidad in Port of Spain, Trinidad. Among other topics, the Summit's overall theme will focus on the role of **Project Management in the 21<sup>st</sup> century**. Additionally, in line with previous IIL events, the Summit will serve as an invaluable opportunity for project management professionals to examine and create dialogue with the region's top business and government leaders on the importance of project management as a discipline and strategic business tool in the coming years.

This landmark event will showcase leading innovations in business analysis, keys to successful project management today and beyond, enhanced productivity, the importance of Six Sigma and more. The detailed focus of this event combined with the caliber of speakers including Dr. Harold Kerzner, project management guru and best-selling author, as well as the anticipated attendees should prove to enable in-depth and productive discussions on key challenges and opportunities of project management within organizations worldwide.

According to E. LaVerne Johnson, founder, President and CEO of IIL, "We are very excited about the launch of IIL Caribbean and intend to continue our global expansion initiative until we have a local presence in every major territory where our clients operate. As part of this robust launch, we thought it would be a great opportunity to reach out to organizations in the Caribbean and Latin America by hosting a powerful thought provoking leadership Summit, showcasing insights from some of the industry's leading authorities on the disciplines of Project Management, Business Analysis, Six Sigma, and Microsoft Project Server."

The keynote address for IIL's Caribbean and Latin American Project Management Summit 2008 will be delivered by Dr. Harold Kerzner, world-renowned as the "father of modern day project management". Dr. Kerzner, heralded for his insightful and captivating presentations, will focus on the future of project management including a look at some of the new and powerful Microsoft project enterprise tools and solutions.

"I can think of no better way to expound on our presence in the Caribbean region than to bring back Dr. Kerzner and his outstanding research and exploration of global best practices," said Ian Walcott, IIL Caribbean's General Manager. "As with all IIL companies, our wholly-owned Caribbean office will follow in the same well-respected, tightly run business model of all other IIL

companies around the world. We hold ourselves to a very high standard and our upcoming Summit will serve as a great testament to IIL's dominance in this exploding marketplace."
